## GOPHER POISONS!

MR. FARMER—Your attention for one minute, please

We have been successful in satisfying the Councilors of Collholme and Sounding Creek that our Gopher Poison prices are right. They have again favored us with their orders and we hope to give them the same satisfaction we did last year. To do this we shall need the assistance of every farmer in either of these municipalities. The supplies of every kind of Gopher Poison are going to be short. It is essential that you get yours whilst the getting is good. Come in for what you are entitled to, the first time you are in town. Don't put it off until the Gophers come around, and get left.

## Formalin

We have the same genuine brand we handed out last year. The price is right and the strength guaranteed. Save yourself money by bringing in your containers. These cost money and you pay for it.

## A Knotty Question

Mr. A. W. Todd and the Secretary of the Carpathia S.D. are in Edmonton this week to see if they can straighten out the tangle with Dept. of Education re the school district's vote on school consolidation.

## For a Good Cause

The dance in aid of the Red Cross Fund, under the auspices of the Chinook Women's Institute, held last week, netted the sum of \$100. Of this amount the cushion made and given by Mrs. Ed. Proctor brought in \$27, and was won by H. C. Brigginsshaw.

## You Can Help This Along

Bill are out for the annual supper and concert, in connection with the Cereal church, on March 20th. Proceeds are in aid of the enlarging and furnishing the church. The excellent choir of the church will have charge of the concert. Both pastor and people extend a hearty invitation to all and to help along the worthy object they have in view.

## Chinook Defends the Beaver Cup

On Monday the Chinook Curlers were called to defend the Beaver cup against the Alaskan curlers. During the mild weather of last week the rink was flooded and the ice was in beautiful shape. Although Chinook's two rinks won quite easily, yet until the last two ends the game was in doubt. Both sides curled splendid games, and was much more even than the score indicated. After the game the curlers retired to the King Restaurant, where a pleasant time was provided.

Following is the personnel of the rinks and scores:

Alaskan	Chinook

## Captain Frightened German Cruiser

Commander D. R. Kinnear, of the Pacific Steam Navigation Company, has died suddenly in Liverpool. Early in the war, he distinguished himself by successfully navigating the liner Aega, 8,000 tons, through over a hundred miles of uncharted and dangerous waters in the Straits of Magellan, South America, to escape from a German cruiser, which did not dare to follow him. Thus his daring saved not only his ship, but also the services of 300 French seamen who were on board. For his gallant seamanship Commander Kinnear received the D.S.O. from the King, a gold watch from the French government, and among other recognitions of his exploit, a silk Union Jack subscribed for by children.

### Great Provocation

Mr. Wood was the kind of man always asking obvious questions. The other morning he was passing home of an acquaintance and stopped in astonishment. In front of the house were two large moving vans. The lawn was strewn with furniture, pictures, etc. Mr. Morse, the owner, appeared, grumpy, weary and ill-tempered.

"Hello, Morse!" cried Wood. "Are you moving?"

"Not at all," snapped Morse. "I'm just taking my furniture out for a ride."—Harper's Magazine.

## Predicts Great Advance In Agricultural Education

More Attention to be Given to Training in Our Agricultural Schools

Speaking before the annual convention of the Western Canada Irrigation Association at Kamloops, B.C., James McCaig, of the Alberta Department of Agriculture, made the prediction that the time would come when departments of Agriculture would go much farther than they now do in the matter of agricultural education.

"After the great days of the war" said Mr. McCaig, "the direct effects of the department and Board of Agricultural Education will double the grade of training which we now have for the boys and girls in our agricultural schools. If I were in an irrigation district it would be my interest to go to the minister and impress upon him that when he starts a new school in an irrigation district it should be an irrigation school that is given at that school."

The inference gathered from Mr. McCaig's address was that the department of Agriculture in Alberta was planning to give greater attention to the irrigation interests of the province. The last two years have been seasons of heavy rainfall, and wonderful crops have been produced in what is generally considered a dry area. For two years in succession Southern Alberta, and some districts in Saskatchewan, have produced the greatest crops on the prairie continent. It is worthy of note that these great crops have been produced in the "dry" districts, where there is no irrigation. The value of the dry area of Western Canada, when water is applied, is only beginning to be recognized. Special Government schools for education in the science of irrigation farming will undoubtedly give a great impetus to that branch of agriculture.

### Bismarck and the Dog

Bismarck had a deep more, common sense than present German leaders but he had the same temperament. One evening he attended a gathering of prominent men at the house of a Russian nobleman. During the conversation he was particularly sarcastic, cutting friends and opponents unsparringly. When he rose to take his leave and walked downstairs, the host called a pet dog that was frisking about and led him to one side. "Are you afraid the dog will bite me?" asked Bismarck. "Oh, no," replied the host; "I'm afraid you'll bite the dog!"—Argonaut.

### Natural Result

"I understand Bank doesn't stammer much since he got married." "Of course not; he has more chances to talk than he used to."

## New Health Ideals

Need for Preaching of the Gospel of a Sound Body

Much interest has been aroused in an address given before the Winnipeg Ministerial Association in Winnipeg by Dr. Stewart Fraser, chairman of the provincial board of health. There were three essentials to good citizenship, Dr. Fraser said, a good body, a good mind, and good moral. Two out of the three requisites had been taken care of by the British people and one essential neglected. The same was true of the German peoples. They took care of and developed two sides of their character and left out the third. "The only difference is the difference of selection as to what was worth while."

"The schools are provided to take care of the mental development, the moral ideals are taken care of by the ministers in the churches and Sunday schools, but there has been no one here to preach the gospel of a sound body," Dr. Fraser said. "The Germans, on the other hand, he pointed out, took care of the body first and foremost, and of the intellect, but they left out the third. The difference is the difference of selection as to what was worth while."

## Americans Ruin Nervous System

Life Insurance Companies Say Health Is Deteriorating

We Americans, it seems, are little better physically than a race of mollycoddlers. Our muscles are flabby from lack of use and our nervous systems and digestive organs are ruined from excesses. We are mostly too fat, and our average span of life is "ridiculous" down to a science, admit that they have written more life insurance upon American risks than upon the people of all the rest of the world put together, though the American population is only about one-fifth of the whole.

The results of the facts revealed at the recent meeting in New York of the Association of Life Insurance Presidents. The 200 delegates represented about 80 per cent of the larger companies of the United States and Canada, which place approximately one per cent of the 24 billion dollars of old time life insurance now in force in this country. —New York Herald.

## WOMEN WHO SUFFER

Can Obtain New Health Through the Use of Dr. Williams' Pink Pills

Every woman at some time needs a tonic. At special times unusual demands are made upon her strength. Where these are added to the worry and work which falls to her lot, weakness and ill health will follow unless the blood is fortified to meet the strain.

Weak women find in Dr. Williams' Pink Pills the tonic exactly suited to their needs. Most of the ills from which they suffer are due to bloodlessness—a condition which the Pills readily cure. These pills save the girl who marries into wantonness a bloodless condition from years of misery, and afford prompt and permanent relief to the woman who is bloodless, and therefore weak. Mrs. Wm. H. Wagner, Rosenthal, Ont., writes: "After the birth of my second child I suffered from troubles, without going into details. The doctor told me that unless I had an operation would be necessary, but as I dreaded this and Dr. Williams' Pink Pills had been of great help to me, I decided to try this medicine, and I can truly say that after using the pills for some time they should do for me. I am now more enjoyable than it had been for a long time. I think every woman suffering from the ailments of poverty should use Dr. Williams' Pink Pills a fair trial as I know from my own case the great benefit that follows their use."

You can get these pills through any medicine dealer or by mail at 50 cents a box of six for \$2.50. Write to Dr. Williams' Medicine Co., Brockville, Ont.

Relief for Suffering Everywhere.—He whose life is made miserable by the suffering that comes from indigestion and constipation, and who has tried all the remedies, will find relief in the use of Dr. Williams' Pink Pills. They are the result of long and patient study and are confidently put forward as a sure remedy for disorders of the digestive organs, from which so many suffer.

Appeal to the Farmer

Supreme Duty of Every Man on the Land Is to Increase Food Supply

For two years and a half, war, red and ruinous, has raged through the world, and still no decision has been reached. There is reason to hope that before 1917 closes the struggle for liberty will have been won, or, at least, advanced. And the varying phases of this titanic conflict the fact stands out more clearly than ever that agriculture is of supreme importance. Extraordinary measures are being taken by the Allied countries to increase and encourage production. It is earnestly hoped that every farmer in Canada will strive to increase the food supply of the Empire. A still powerful and unscrupulous enemy openly avows its intention to try and starve the Allies into submission. In England during the coming year, the tremendous strain yet to come a vital factor will be an ample and unfailing flow of food to England and France. No matter what difficulties may face us, the supreme duty of every man on the land is to use every thought and every energy in the direction of producing more, and still more.—From the Agricultural Gazette for January, 1917.

### France Cuts Down Meals

Food Wasted Now May Mean Much Before the War Is Over

France has followed the example of England and Italy in restricting meals in restaurants. Diners in restaurants are hereafter restricted to hors d'oeuvres or soup, two other dishes and cheese or dessert. In regard to the two main dishes, the bill of fare, instead of the sixty or seventy items usually presented, is confined to a maximum of nine. The nine include one egg dish, three meat and three vegetable. The restrictions have been drawn up in conjunction with the representatives of the provision trades and have been taken in good part by both the public and the restaurant proprietors. Public opinion generally recognizes the importance of stopping the waste in food.

The decree is applicable to all establishments where meals are sold to the public, including clubs, hotels, boarding houses and canteens. Management must submit bills of fare for luncheons to the police authorities not later than 10 o'clock on the day and for dinners not later than five o'clock and must hang up a copy of the regulations in a conspicuous place.

The restriction includes an absolute prohibition of puddings and all other confectionery, milk, eggs, sugar and vegetables. Salads count as courses unless served on the same plate with meat. Albert Clavelle, under secretary for national subsistence, said in regard to the decree:

"We have got to think of the future. The food situation is not grave at present, but importations may be subject to delay and our home production may meet unforeseen accidents. It is a question of holding out. That is why we are taking at once precautions which, without incommensurating the public, will enable us to realize appreciable economy."

Turned the Tables

A lady entered a railroad car and took a seat in front of a newly-married couple. She was hardly seated before they began making remarks about her.

Her last year's bonnet and coat were fully criticized with more or less giggling on the bride's part, and there is no telling what might have come next if the lady had not put a sudden stop to the conversation by a bit of strategy.

She turned her head, noticed that the bride was considerably taller than the groom, and in the smoothest of tones, said:

"Madam, you may please ask your son to close the window."

"The son" closed his mouth, and the bride no longer giggled.

### Attacks on trains are very popular with the British Flying Corps.

In spite of the bad weather Lieutenant Owen Taylor boyed one day descended to within 350 metres in order to drop bombs on a passing train. Lieutenant Gordon Gould, attacked during a reconnaissance, was wounded in the leg. In spite of the intense pain he brought down one enemy machine, severely damaged another, and then calmly continued his appointed work.

COMES ADVICE TO SUFFERERS TO USE DODD'S KIDNEY PILLS

Glacier Creek Lady Says They Have Been Her Stand-By For Sixteen Years And She Has Never Known

Glacier Creek, via Dawson, Yukon, Can. (Special).—"North of fifty-three where doctors are long distances away, and where those remedies that are a very present help in time of need are the reliance of the settlers, Dodd's Kidney Pills have established an enviable reputation. Hear what Mrs. A. Armstrong, a well-known resident of this place has to say of them:

"Dodd's Kidney Pills have been my standby for sixteen years. Mrs. Armstrong states, 'Both myself and my family have the greatest faith in their medicinal qualities. When any of my friends complain of even a headache I treat them with Dodd's Kidney Pills and they never fail to do good.'"

"It always gives me pleasure to say a good word for Dodd's Kidney Pills."

Dodd's Kidney Pills cure all kidney ills from backache to rheumatism, Bright's Disease and heart disease. These troubles come from sick kidneys. That's why Dodd's Kidney Pills cure them.

INTEREST PAYABLE HALF-YEARLY, 1st MARCH, 1st SEPTEMBER.

PRINCIPAL AND INTEREST PAYABLE IN GOLD.

ISSUE PRICE 96.

A FULL HALF-YEAR'S INTEREST WILL BE PAID ON 1st SEPTEMBER, 1917.  
THE PROCEEDS OF THE LOAN WILL BE USED FOR WAR PURPOSES ONLY.

THE MINISTER OF FINANCE offers herewith, on behalf of the Government, the above-named Bonds for Subscription at 96, payable as follows:—

10 per cent on application;	
30 " 10th April, 1917;	
30 " 15th May, 1917;	
25 " 15th June, 1917.	

The total allotment of bonds of this issue will be limited to one hundred and fifty million dollars, exclusive of the amount (if any) paid for by the surrender of bonds as the equivalent of cash under the terms of the War Loan prospectus of 22nd November, 1915.

The instalments may be paid in full on the 16th day of April, 1917, or on any instalment due date thereafter, under discount at the rate of four per cent per annum. All payments are to be made to a chartered bank for the credit of the Minister of Finance. Failure to pay any instalment when due will render previous payments liable to forfeiture and the allotment to cancellation.

Subscriptions, accompanied by a deposit of ten per cent of the amount subscribed, must be forwarded through the medium of a chartered bank. Any branch in Canada of any chartered bank will receive subscriptions and issue provisional receipts.

This loan is authorized under Act of the Parliament of Canada, and both principal and interest will be a charge upon the Consolidated Revenue Fund.

Forms of application may be obtained from any branch in Canada of any chartered bank and at the office of any Assistant Receiver General in Canada.

Subscriptions must be for even hundreds of dollars.

In case of partial allotments the surplus deposit will be applied towards payment of the amount due on the April instalment.

Scrip certificates, non-negotiable or payable to bearer in accordance with the choice of the applicant for registered or bearer bonds, will be issued, after allotment, in exchange for the provisional receipts.

When the scrip certificates have been paid in full and payment endorsed thereon by the bank receiving the money, they may be exchanged for bonds, when prepared, with coupons attached, payable to bearer or registered as to principal, or for fully registered bonds, when prepared, without coupons, in accordance with the application.

Delivery of scrip certificates and of bonds will be made through the chartered banks.

The issue will be exempt from taxes—including any income tax—imposed in pursuance of legislation enacted by the Parliament of Canada.

The bonds with coupons will be issued in denominations of \$100, \$500, \$1,000. Fully registered bonds without coupons will be issued in denominations of \$1,000, \$5,000 or any authorized multiple of \$5,000.

The bonds will be paid at maturity at par at the office of the Minister of Finance and Receiver General at Ottawa, or at the office of the Assistant Receiver General at Halifax, St. John, Charlottetown, Montreal, Toronto, Winnipeg, Regina, Calgary or Victoria, or at the Agency of the Bank of Montreal, New York City.

The interest on the fully registered bonds will be paid by cheque, which will be remitted by post. Interest on bonds with coupons will be paid on surrender of coupons. Both cheques and coupons, at the option of the holder, will be payable free of exchange at any branch in Canada of any chartered bank, or at the Agency of the Bank of Montreal, New York City.

Subject to the payment of twenty-five cents for each new bond issued, holders of fully registered bonds without coupons will have the right to convert into bonds of the denomination of \$1,000 with coupons, and holders of bonds with coupons will have the right to convert into fully registered bonds of authorized denominations without coupons at any time on application to the Minister of Finance.

The books of the loan will be kept at the Department of Finance, Ottawa.

Application will be made in due course for the listing of the issue on the Montreal and Toronto Stock Exchanges.

Recognized bond and stock brokers having offices and carrying on business in Canada will be allowed a commission of three-eighths of one per cent on allotments made in respect of applications bearing their stamp, provided, however, that no commission will be allowed in respect of the amount of any allotment paid for by the surrender of bonds issued under the War Loan prospectus of 22nd November, 1915, or in respect of the amount of any allotment paid for by surrender of five per cent debenture stock maturing 1st October, 1919. No commission will be allowed in respect of applications on forms which have not been printed by the King's Printer.

SUBSCRIPTION LISTS WILL CLOSE ON OR BEFORE THE 23rd OF MARCH, 1917.

### SYNOPSIS OF CANADIAN NORTH- WEST LAND REGULATIONS

THE sole head of a family, or any male over 18 years of age, may homestead a quarter section of available Dominion land in Manitoba, Saskatchewan or Alberta. Applicant must appear in person at the Dominion Lands Agency or Sub-Agency for the District. Entry by proxy may be made at any Dominion Land Agency (but not Sub-Agency), on certain conditions.

Duties—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, on certain conditions. A habitable house is required, except where residence is performed in the vicinity.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties—Six months' residence in each of six years after earning homestead patent; also 30 acres extra cultivation. Pre-emption grant may be obtained as soon as homestead patent, on certain conditions.

A settler who has exhausted his homestead right may take a purchased homestead in certain districts. Price \$3.00 per acre. Duties—Must reside six months in each of three years, cultivate 30 acres and erect a house worth \$2000.

The area of cultivation is subject to reduction in case of rough, scrubby or stony land. Live stock may be substituted for cultivation under certain conditions.

## English Descent Leads

### IN UNCLE SAM'S PRESIDENTS

President Wilson is the 28th president of the United States, reckoning Cleveland's two terms as separate ones because he was the only president serving twice who was not re-elected.

Virginia leads in the nativity of presidents. Eight of her sons—Washington, Jefferson, Madison, Monroe, William H. Harrison, Tyler, Taylor, and Wilson—have held the highest office in the gift of the nation.

Ohio has given six native sons to the presidency. They were Grant, Hayes, Garfield, Benjamin Harrison, McKinley and Taft.

Of all the vocations of life the law has furnished most presidents. Nineteen chief executives of the United States were lawyers at the time they were elected. Three are classed as statesmen; two as soldiers; two as farmers; one as a public official.

Seventeen presidents have been college men; one was graduated from West Point, nine had no collegiate education.

English paternal ancestry has predominated among all the presidents. Fifteen were of English extraction. Six were Scotch-Irish, three were Scotch, two Dutch, one was Welsh.

The youngest president, at the time of inauguration, was Roosevelt, who was 46. The oldest was William Henry Harrison, who was 68.

Of all the presidents John Adams lived to the oldest age. He was 90 when he died.

## Soldiers to Keep Poultry

Variety of Work Provided for Disabled Soldiers

The following taken from the Fruit and Farm Magazine, at Vancouver, British Columbia, is interesting.

"From cities as far as Victoria and Quebec come reports of an interesting development in the training of our disabled soldiers.

"Variety, of course, is always aimed at in their training by the Military Hospitals—Commission. What one man is fit for another is not. That is true even among able-bodied men. It is much more true among the disabled; for they are disabled in all sorts of different ways. A large number of subjects are taught, so that every man, whatever his trouble may be, can pick out the trade or occupation offering him the best assurance of success.

At the Esquimalt Hospital, Victoria, a Poultry-raising Club has been organized and is making very satisfactory progress. At the same place rabbit-raising has been undertaken and a corresponding decrease in the number of subjects are taught, so that every man, whatever his trouble may be, can pick out the trade or occupation offering him the best assurance of success.

"Bee-keeping also is being taken up at Victoria; and there is talk of homing pigeons also to appear on the scene."

## AN EXCELLENT MEDICINE FOR LITTLE ONES

Baby's Own Tablets are an excellent medicine for little ones. They sweeten the stomach, regulate the bowels, break up colds and simple fevers, cure constipation and make teething easy. Concerning them Mrs. E. Quinn, Fairview, Que., writes: "Baby was troubled with colic, constipation and nothing helped him till I began using Baby's Own Tablets. They are an excellent medicine for little ones. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

## A Barrage

A Soldier Writing From the Front Describes Terrible Gun Fire

A clear description of a "barrage" is given in a letter to a friend from Pte. E. H. Malone, overseas with a field ambulance unit. Speaking of the "big push" he writes:

"When I think over this period of service there are several things which strike me as remarkable, only one or two of which it is permissible for me to mention. It was at that time that I became really convinced of our air supremacy. I had the great pleasure of seeing two of Fritz's planes (the only two that I saw over our lines) brought down over our planes. Our planes were constantly at work. They seemed to cross and recross the line with the greatest unconcern, though invariably shelled, and sometimes entertained us with a fireworks exhibition at the expense of Fritz's kite balloons.

"Speaking of fireworks, a really awesome sight is the spectacle of a 'barrage.' Imagine a strip of land some two or three miles long, which is about as much as is visible to the ordinary spectator at ordinary times, covered to the width of 100 yards and the depth of fifty feet with flashes of flame and puffs of smoke caused by bursting shrapnel. Mix this with the clouds of dust and heavy black smoke of high explosives hitting the earth in the same region, until the thin straggling lines of troops advancing into and through it, is swallowed up in the murky artificial haze. Think then of the hail of iron and other metals falling within that cloud and you have it.

"Our health, comfort and even amusement are as well provided for as circumstances permit. It is possible to be at a moving picture show one evening and in the firing line next morning. The clouds of dust on the western front. Football, cricket baseball and so on are encouraged wherever and whenever possible.

## German Faith in Terrorism

History and the experiences of the present war prove that Germany's excuse of necessity for using submarines against merchantmen and making no prizes has been purely psychological. In all probability if Germany had clung to the old morality and had accepted the old rules of humanity, using submarines merely to menace warships and employing surface vessels to attack commerce, she would be much nearer victory today than she is. "The German submarine methods have developed not from necessity, but apparently because they appealed to the same blood in the official mind which also has been the cause of the Zeppelins and the oppression of Belgium—a mental process which may be achieved by terrorism—Buffalo Express.

Visitor—How long are you in for, my poor man? Prisoner—I don't know sir. Visitor—How can that be? You must have been sentenced for a definite period of time. Prisoner—No sir. Mine was a life sentence.

## TO CHANGE YOUR SKIN!

How to Develop the Highest Degree of Vital, Nervous and Muscular Vigor

Shakes throw off their outer skin once a year. Human beings change their skin perhaps nine times in a year; that is, they have a new skin about once in six weeks.

The value of a clean skin in maintaining health is not properly understood by the majority of people. Cleanliness is a part of health. You cannot be healthy unless you are clean, not only externally, but also internally.

The blood should also be assisted occasionally. The skin, in throwing off poisons so that the system may not get clogged and leave a weak spot for disease germs to enter the system. When the blood is clogged, we suffer from what is commonly called a cold. Dr. J. C. Golden's Medical Discovery purifies the blood and entirely eradicates the poisons that breed and maintain disease. It cleanses the system, breaks up colds and simple fevers, cures constipation and makes teething easy. Concerning them Mrs. E. Quinn, Fairview, Que., writes: "Baby was troubled with colic, constipation and nothing helped him till I began using Baby's Own Tablets. They are an excellent medicine for little ones. The Tablets are sold by medicine dealers or by mail at 25 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont."

It will penetrate into the joints and muscles, and dissolve the poisonous accumulations. Bad blood is driven out. It will furnish you with rich, pure blood full of vital force—the kind that increases energy and ambition, that rejuvenates the entire body.

"Nobody can say our town isn't literary," said the old woman. "No," I asked her again. "No," I said, "I killed a poet here once, just so we could build a monument to him."

## Fighting in the Clouds

In Flanders men fight underground in trenches and dugouts, while in Italy they battle up in the clouds on mountain tops and passes. On the sides of these mountains, trenches have been hewn out of the rock as a defence against the enemy, who are obliged to advance over the open mountain when attacking.

Fight guns are set over the gorges by means of cable way and the wounded are sometimes removed in the same manner. The men have to work amid snow and ice, and at times heavy clouds descend over the mountains.

Often a tremendous explosion occurs, and when the clouds lift they will reveal a mountain from which the top has disappeared. Mining operations have been in progress, and the charge of explosives has altered the face of nature—Montreal Star.

Hairpin Came Before Button Woman knew the uses of the hairpin before she became acquainted with the button, according to Prof. Charles C. Torrey of Yale, who lectured recently at Washington. University in St. Louis. Professor Torrey said that hairpins had been found in a rock stratum lower than those in which buttons were found. "The oldest style of hairpin was the bow, according to the Yale professor. Ringlets, popular among young women and some not so young, were used in high favor with belles of Babylon four thousand years ago, he said.—Kansas City Star.

## Good Old Times

Scarcity of potatoes makes us think of times long ago when the all-important tuber was known only to American Indians and wild swine or other wild animals that grubbed it up. Our Sicilian ancestors got along with out potatoes, corn, peaches, turkey, rice, bananas, oranges, lemons, sugar and tobacco. No chocolate, bologna, no cigarette in those days! No tea or coffee. Was there good butter? Some of us get along without a number of these things, too, but our ancestors were not tantalized by the sight of them heaped up in fascinating shop windows and with impossible prices ticked on them. There could not have been an H. C. L. problem in such a time. Eggs and milk were probably almost free when our ancestors worried along without a lot of present day luxuries.—London Advertiser

## The Cult of Militarism

German Psychology so Gross and Pervetted That It Has No Parallels in Modern Times

The Germans had for years been preaching the doctrine and the cult of militarism and infusing the virus of organized brutality into the minds of the people of this country, whose knowledge of the act of a small clique or school of men, but their historians, professors, literary men and learned men had been engaged in a conspiracy to produce the result. Books which preached the doctrine of brute force, material arrogance, and world-wide domination, were circulated and read by hundreds of thousands of people in Germany almost unknown to the people of this country, whose knowledge of German literature had been largely confined to the great writers of the past. After years of this, suddenly war broke out, and we found the revelation of this spirit in the acts and conduct of the people. We now know there was no crime so black, no atrocity so revolting, that would not be perpetrated by the German people, and—perpetrated with pride and self-congratulation. We were dealing with a psychology so gross and revolting, that it had no parallel in modern times.—Lord Curzon.

## Tommy Was Disappointed

The mails from home had just been received by a certain regiment. Not only were there letters, but many of them were relatives and friends at home for lucky soldiers. One of the Tommies received a large box addressed to himself, and with a triumphant yell he rushed off to his company's lines and gathered them round him to share in the eagerly anticipated contents of his box. "Smokes, lads," he cried, as he unfolded the wrapping. "From the old man! I know it. An' there's sure to be a bottle or two of Scotch!" He opened the box, gave one look at the contents, and collapsed in a heap. "What is it?" cried his comrades, pressing round. "It's from Auntie Mary," groaned the disappointed warrior. "Band ages an' ointment an' embrocation 'n' splints, an' a book on 'Ow to Be Your Own Surgeon'—Montreal News

Asthma Cannot Last when the greatest of all asthma specifics is used. Dr. J. D. Kellogg's Asthma Remedy assuredly deserves this exalted title. It has countless cures to its credit which other preparations have failed to benefit. It brings help to even the most severe cases and brings the patient to a condition of blessed relief. Surely suffering from asthma is needless when a remedy like this is so easily secured.

## Interesting Alternatives

The Paris Gaulois publishes the following statement by a prominent Swiss baker:

"You must hold on and do nothing rash. The depression of the mark is obvious, and more is to come. We know here that your currencies are in a desperate position and that what they have done in Roumania has given them no decisive result, and Charles C. Torrey of Yale, who lectured recently at Washington. University. They know they are done for. Think what the fate of their rulers will be! If victorians they may be assassinated. If vanquished the scaffold awaits them."

Will Take 503 Years to Survey Water It will take 503 years to make a complete survey of the waters of Alaska, California, Washington and Oregon, according to estimates made by Superintendent E. Lester Jones of the United States coast and geodetic survey. The estimates are based on progress made with the present facilities. It will take 333 years to complete the survey of Alaskan waters and 170 years to chart the waters of Washington, Oregon and California, he says.

Freddie, accompanied by his governess, was passing a street where a load of straw had been scattered in front of one of the houses in which there had been illness. "Miss Manning, why did they scatter this straw about here?" "Well, Freddie," she replied, "a little baby came to Mrs. Reed last night." "My," said Freddie, "but it was well packed."

## A Legislative Test

As a test of sobriety, "Peter Piper picked a peck of pickled pepper," is quite as good as any other; though scarcely expected to see it become a model for the drafting of a government bill. But clause 2 of the measure with which it is proposed to amend the output of beer (restriction) act, 1916, loudly betrays its origin. Here is the shameless plagiarist: "Where the year ending September 30, 1914, is adopted by a brewer for the purpose of computing standard barterage, and the brewer proves to the Commissioners that he has closed any brewery, and it has not since been used as a brewery, so much of any beer so brewed at the closed brewery as the Commissioners think just in the circumstances shall be deemed to be beer brewed at the Brewers' brewery."—The Westminster Gazette.

Miller's Worm Powders destroy worms without any inconvenience to the child, and so effectively that they pass from the body unperceived. They are not ejected in their entirety, but are ground up and pass away through the bowels with the excreta. They thoroughly cleanse the stomach and bowels and leave them in a condition not favorable to worms, and there will be no revival of the pest.

## A Difficult Question

Catherine seemed such a reliable girl that Mrs. Moran had no hesitancy in leaving her in charge of the children while she went for a long drive. "How did they behave during my absence?" she asked on her return. "Beautifully madam," Catherine replied, "but in the end they fought terribly." "Why on earth did they fight?" "To decide which was behaving best."

## Medical Use of Alcohol

It is very necessary to state definitely that a narcotic such as alcohol, possessing possibilities for the initiation of habits and methods of life which may be productive of infinite evil, should never be self-administered and must only be employed as a therapeutic agent under strict and scientifically directed medical supervision.

Even the generally accepted view that alcohol was desirable if not necessary for the advanced in life, an opinion expressed in the saying that "Wine is the Milk of Old Age," is now being discarded and declared by experts to be a great and dangerous fallacy.—T. N. Kelynaek, M. D.

## Catarrhal Deafness Cannot be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure catarrhal deafness, and that is by a constitutional remedy. Catarrhal deafness is caused by an inflammation of the mucous lining of the Eustachian Tube. When this tube is inflamed, it has a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result. Unless the inflammation can be reduced and this tube restored to its normal condition, hearing will be destroyed forever. Many cases of catarrhal deafness, which have been declared by experts to be incurable, have been cured by the use of the Catarrhal Cure. It acts through the blood on the mucous surfaces of the system.

We will give One Hundred Dollars for any case of Catarrhal Deafness that cannot be cured by Hall's Catarrh Cure. Circular free. J. J. CLEGG & CO., Toledo, O.

## One of Those "Sure Things"

"A friend of mine has a great scheme." "I can suggest a better one." "What is it?" "Don't invest in the scheme."

SCHOOL days are anxious days for parents as well as for children. At the most critical time in their lives girls, and boys, too, are subjected to the enormous nervous strain which examinations and excited ambition entail.

To many children this means nervous breakdown, with weakness of the digestive system, headaches, fainting spells, and a run-down condition, which makes them fit subjects for coughs, colds and contagious diseases.

"The blood has become thin and watery," and the nerves are being starved, as is evidenced by weakness of the optic nerve, and the necessity of wearing glasses.

The national treatment for this condition is Dr. Chase's Nerve Food. While gentle and natural in action, this food cure is wonderfully potent in restoring strength and vigor to the exhausted nervous system.

Experience with many thousands of cases has proven that this restorative treatment is just what pale, weak, nervous children need to build up their systems and to help them back to health and vigor.

Dr. Chase's Nerve Food

Dr. H. H. Houston, Highland Grove, Ont., writes: "While attending school my daughter became weak and very much run down. She was frequently troubled with fainting spells, and nothing we tried seemed to do her any good. We were advised to try Dr. Chase's Nerve Food, and did so with most satisfactory results. I am pleased to report that after using five boxes of the Nerve Food she was completely cured, and has had no return of the fainting spells."

## Rural Hospitals

### THE GOVERNMENT MEASURE

As the government's intention in regard to the rural hospitals is great importance to Chinook and will have an important bearing upon the future of our own local hospital, which is practically at a stand-still until something definitely is known as to the government's attitude on this question, we give below the government's amended bill:

Under it the minister shall divide the province into hospital districts convenient for the organization of hospital boards and will advise on all questions affecting architecture and construction of buildings, or equipment or appliances.

The minister of municipalities will also advise on all matters of expenditure and fees charged, and generally on all costs of maintenance and management, or upon the exercise of any powers vested in the board.

Upon the petition of the council of a municipality or of 25 electors of a municipality, or in case there is more than one municipality in a district, upon the application of each council included or of 25 electors of each municipality included, the minister may authorize the appointment of a board.

The board, if in one municipality will consist of three members of the council and three from the electors. If more than one municipality is included the board will consist of two members from each municipality, one from the council and one from the electors of each. After the organization meeting the board will appoint a chairman from among themselves. The boards may pay their members ten cents a mile from their homes to the place of meeting and return, each meeting.

The board will provide for the location and purchase of a suitable hospital site; the purchase, acquisition or erection of buildings, furnishings and equipment; the engagement of duly qualified medical practitioners and registered nurses. They will provide a schedule of fees proposed to be charged and the method of collection.

No levy can exceed two mills on the dollar in municipalities, or two cents an acre where taxes are levied on acreage basis. No tax shall be less than ten cents. The new act does not deprive any one of the benefits or annul the powers of the hospitals ordinance, the public health act, or the public utilities act.

A masquerade ball is to be held in Arm's hall, Chinook, Mar. 23.

Mr. and Mr. Brownell, sr., of Seibert, Colorado, arrived in Chinook last week, and will remain here for the summer.

Mr. and Mrs. J. R. Smylie left Tuesday for Southern Idaho, and expect to be there with Mrs. Smylie's parents for the summer.

There will be a Patriotic Social and Entertainment in aid of the Red Cross, at the Collingwood school house, on Friday, March 23rd. Admission: Adults 50c., children 25c.

Mrs. Rideout is making an addition to the front of her house by building a veranda and a set-out room on the west end of the veranda, which is a great improvement to the appearance to the house.

A pleasant social evening is being arranged for Thursday, March 22nd, by the Literary Society of the Chinook Consolidated School. The programme will be given in the assembly room. Refreshments served. A hearty invitation is extended to all. Admission 35 cents.

A debate and concert, under the auspices of the local K.P.'s, will be held in Arm's hall, Chinook on Tuesday, March 27th. The debate will be between Youngstown and Chinook K.P.'s. Vocal and instrumental musical talent from Youngstown will aid in the concert. Dance at the close

The first weekly Red Cross tea under the auspices of the Chinook Women's Institute, was held at home of Mrs. K. S. Woodruff on Thursday of last week, and was well attended and very much enjoyed. No charge is made but a silver collection, which realized \$6.50. It is intended to hold these teas on Thursday of each week, from 3 to 5:30, this week (to-day) being at the home of Mrs. A. Nicholson, on the 22nd at Mrs. A. H. Peck's, on the 29th at Mrs. I. W. Deman's. Further dates later. These teas are open to anyone, both ladies and gentlemen.

### BUGGY and WAGON PAINT

\$2.00 spent in this way will make your buggy or wagon look like new and wear twice as long. Try Stephens Buggy or Wagon Paint.

### OIL YOUR HARNESS NOW

Before Spring work. Does it pay? Well, you know. Makes it look up, too.

### TINWARE and GRANITWARE

Costs money these days. Bring in your kitchen utensils and let us repair them. Won't cost much and keep down the expenses.

Yours for satisfied customers
